

# Connecting learning to practice with NWEA Instructional Coaching

## Impactful learning experiences rely on the effective use of data

NWEA® Instructional Coaching goes beyond MAP® Growth™ data interpretation; it enhances educator assessment literacy, translating complex data into practical and impactful instructional strategies.

## NWEA INSTRUCTIONAL COACHING FOCUS AREAS:

- **Explore your data:** What is your data uncovering and how will you prioritize your next steps of action?
- **Make data-informed instructional decisions:** What differentiation and scaffolding is needed based on your data? What is needed for small-group instruction?
- **Formative practice:** How can I use formative practices to assure my class is on track for growth?
- **Data collaboration:** How do I empower students to own their learning journey and goal setting? How do I set up a system of data use?

## Centered around research, action, and reflection

Instructional coaches engage participants in research-based inquiry, action, and reflection using data to support best practices and equitable instruction.

## Coaching cycles that support sustained growth

### INQUIRY

Encourages educators to ask critical questions and explore data, forming the basis for informed strategies

### ACTION

Translates insights into practical, classroom-ready techniques

### REFLECTION

Allows educators to assess the effectiveness of their actions, fostering continuous improvement

## Personalized development at any career stage

Available in 1-hour virtual or 6-hour onsite sessions. The 6-hour onsite session can be broken down into meeting with grade-level teams or PLCs throughout the day. These sessions ensure that educators are equipped to excel. Each instructional coaching session is grounded in research-backed practices and provides educators with MAP Growth data tools, insights, and support necessary for improved instructional practices.
