Lead with Data- Driven Insights

Lead with Data-Driven Insights

- How did **strategic planning** help support your implementation to achieve those goals?
- What was the most difficult decisions you had to make so that you could **foster the growth** you wanted?
- You demonstrated tremendous success at your school while principal. How did you **build momentum** with your staff?

Build Data-Driven Systems

Build Data-Driven Systems

- No implementation is perfect. What **challenges** did you face while finding the “right” tools and data to utilize?
- What **systems** did you utilize to bring your team on board with analyzing data?

Foster a Culture of Equity and Improvement

Foster a Culture of Equity and Improvement

- What kind of subgroup **data gaps** did you have in your schools?
- How do you support schools in **closing the achievement gaps** and build solutions to those challenges?
